COORDINACIÓN DE REGULACIÓN MIGRATORIA  
DIRECCIÓN DEL REGISTRO NACIONAL DE EXTRANJEROS Y ARCHIVO MIGRATORIO

ABRIL 2005

The National Immigration Institute has more than 2 million 400 thousand immigration records.

	Central Immigration File	Regional Offices	Total	
Active Files	474,768	328,466	803,234	
Passive Files	1,000,000	42,783	1,042,783	
Historical	550,000	14,357	564,357	
Total:	2,024,768	385,606	2,410,374	Foreign National Records 521,949 FM1

The space needed to store INM records is approx. **7,700,000 sq ft**

That`s bigger than a **soccer field!**

If these records were stacked on top of each other, it would make a column of **37,720 feet** high.

Higher than **Mount Everest**, which is **29,028 feet**

### Previous storage building

### The old way...

New storage building

On December 2002, the INM purchased a file storage building.

Between March and June of 2003, 2,000,000 files were moved to the new building.

New storage facilities.

We required 3,790 shelves to hold our files.

These 32,800 boxes held more than 2,000,000 pages.

33,000 new records are added each year.

### Imaging Project

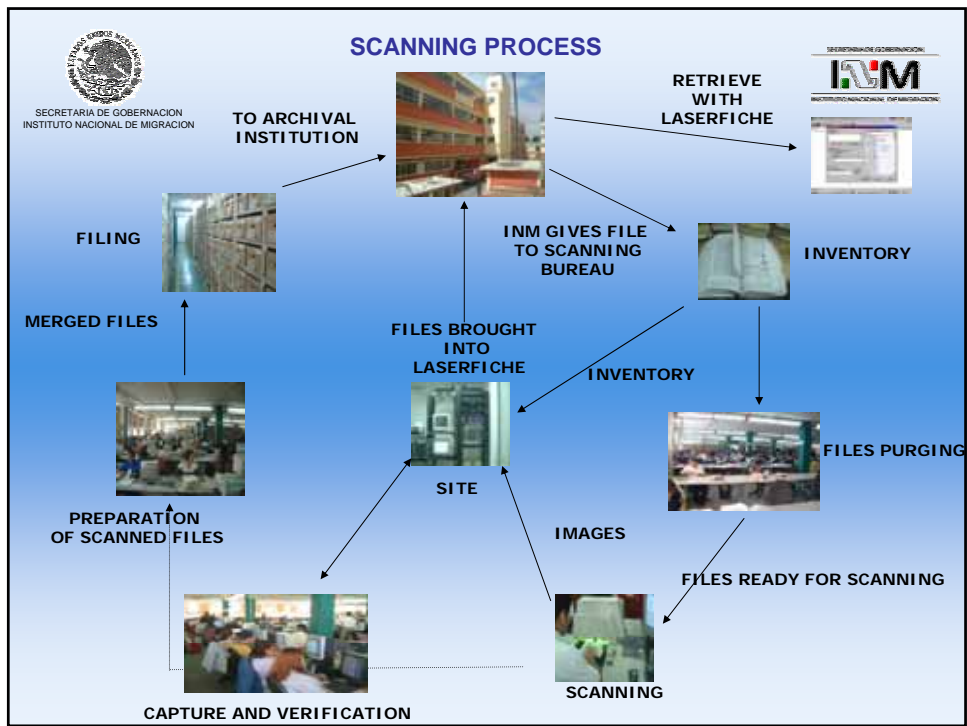

#### Phase One 2003-2005

1. Bid to scan 1,100,000 pages
2. Bid to scan 521,949 Immigration forms (FM1)

#### Phase Two 2005-2006

1. Phase two bid preparation
2. Scan 450,000 records from the archive files
3. Scan 550,000 records from the historical files

Can you believe you are looking at 70 million images at once?

**Scanning Crew:**

- 10 people at control table
- 100 people at purge procedures
- 80 people at scanning
- 20 people at capture
- 20 people at quality control
- 40 people at files rebuilt
- 5 people at filing
- 10 people at central system

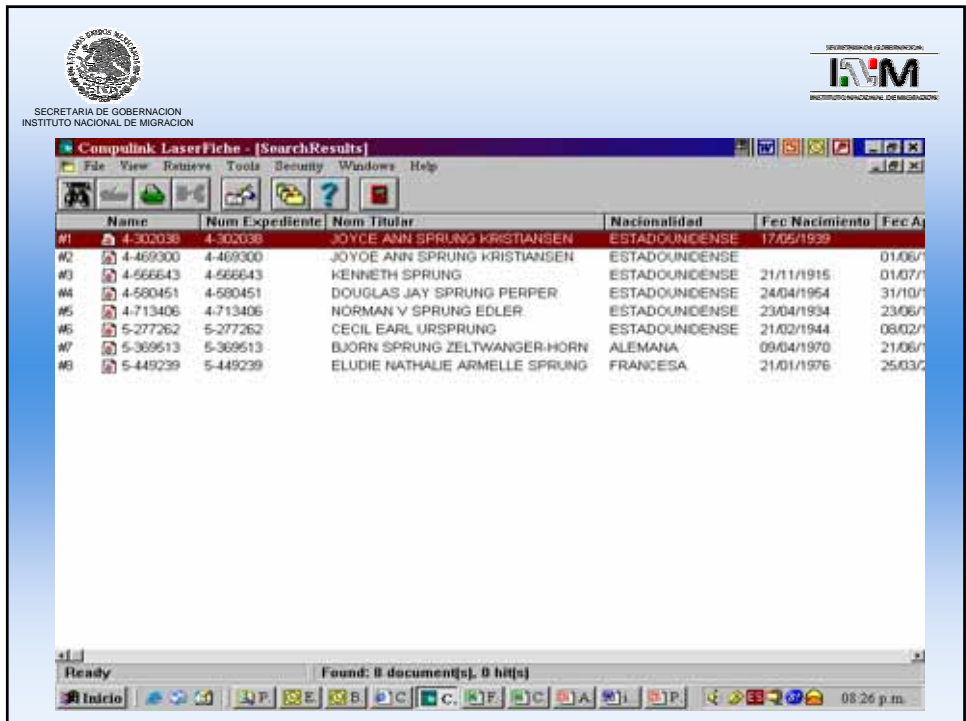

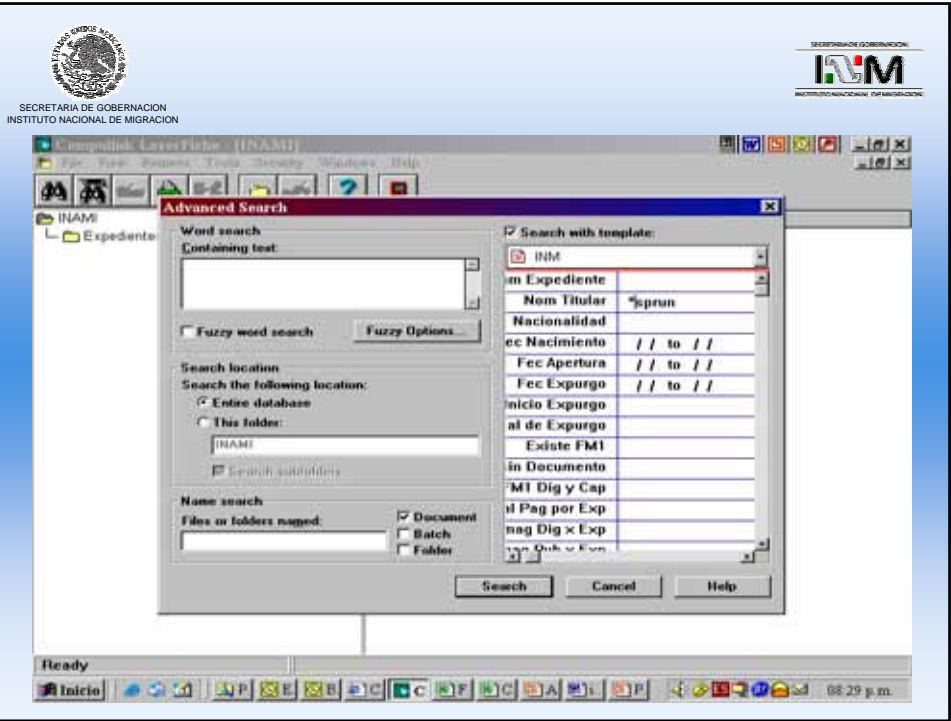

*285 people working on the project*

- 50 records are processed in 7 days on average.
- 1,100,000 records were scanned representing more than **75,600,000** pages.
- 13,474 boxes processed.

*All done in 14 months!*

### Foreigners National Registry Imaging Project, Form FM1

- Project started December 23, 2003
- Completed on May 26 with 486,000 FM1 forms scanned
- A total of 521,949 by September 30
- Data and images can be retrieved through FM1 SIOM's module
- Restoration of FM1 with RNE No. 1 performed by The National Anthropology and History Institute

### Back File Project

750,000 files were scanned between December 2003 and November 2004.  
1,100,000 files will be scanned this year.

From January thru December of 2004, paperwork efficiency increased by 11.5% compared to same period in 2003.  
Just on the Foreigners National and Immigration Registry departments.

#### Business Processes Comparison

3,893 more requests processed in 2004.  
That's 324 more each month.

100% of requests were fulfilled within our required response periods.

### Processed requests coming from Judicial, Federal and Local authorities sent to the National Foreigners and Immigration Registries Department.

León Trotsky's Immigration Form FM1 issued by the Immigration Department on January 9th, 1937. File 4/351.8"36"/149

## Benefits

- Efficient and modern Archival system, in compliance with our Federal Law of Transparency and Access to Governmental Public Information, as with IFAI and AGN regulations.
  - Effective control over the information pertaining to foreigners and also at a national level.
  - Easy file retrieval process using SIOM.
  - Resolution time decreased on immigration related paperwork.
- Immediate response to requests by government authorities.
  - Facilitates national security priorities.
- Statistical reports on Immigration trends.
  - Effective decision making based on accurate and well organized information.

- Integration and preservation of files according to archival principles and procedures.
- Establishment of a national migratory information network that allows, from anywhere within the the country, access to digitized files through the SIOM system.
- Continuous improvement of the service processes provided to foreigners by INM.
- Transparent and effective information control information, decreasing the risk of possible corruption acts.
